

## AmallGam Cloud Viewer

Cloud Viewer is AmallGam Oil Tools proprietary cloud-based software which is used to upload, share, review and analyse video data recorded on WellCAM or ReadyCAM. Cloud Viewer is entirely web-based, so no local installation is required.

Cloud Viewer is a powerful tool for to view and fully analyse video data. Cloud Vewer is also a digital library for your well, enabling additional information to be stored on the data entry for a full narrative of your well.

Cloud Viewer users have a secure login and is accessible anywhere by anyone at anytime.
